Scalable self-paced Business English learning

We set the standard. You set the pace.

- Learnship Solo, our e-learning product, provides everything learners need to practice and improve their business language skills at their own pace.
- Our award-winning curriculum includes 11 levels, allowing learners to progress from beginner to expert. We start with an assessment to gauge their proficiency and at each level, learners get direct access to programs and materials suited to their abilities.

A complete self-paced language learning solution

- An online assessment to precisely place your learners at one of 11 CEF-aligned levels
- A level-based program with daily activities to progress steadily
- 1,000+ hours of additional activities and productivity tools
- Engaging micro-learning missions on our Reach mobile app
- Hop on/hop off your course on desktop, tablet, and our new Learnship mobile app!
- A personal dashboard, badges, and certificates to track progress.

A range of productivity tools to use on-the-job

Upgrade Solo with additional modules to take your e-learning to the next level:

Learning Specialists will help you get the best from Solo. They'll explain the ins and outs of the technology and help you guide learners through every stage of the e-learning program.

Writing Practice are assignments for learners eager to polish their writing skills. Every project is corrected and graded by a professional trainer.

Talk with the Teacher allows learners to apply their new skills in conversation. Up to 8 users can join a virtual group to practice with speaking specialists for 60 min.

Conversation Practice are one-on-one sessions with trainers where learners can ask questions, discuss a particular issue or role play scenarios.
